

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

SCIENTIFIC BOOKS

METEORITES

Their Structure, Composition and Terrestrial Relations.
By Oliver Cummings Farrington, Ph.D., Curator of Geology,
Field Museum of Natural History, Chicago.

This work gives a complete and accurate account of the present knowledge of Meteorites and embodies the results of the latest researches on the subject. "This volume will at once interest the intelligent amateur and be of value also to the trained specialist." American Journal of Science.

Pp. x+233; 65 illustrations. Price \$2. Postage extra, 2 lb. rate.
For sale by **COLONIAL PRESS, 1510 East 56th Street, Chicago, Illinois.**

A BRIEF ACCOUNT OF RADIO-ACTIVITY

By FRANCIS P. VENABLE, Ph.D., D.Sc., LL.D., Professor of Chemistry, University of North Carolina.

The object of this treatise is to give a simple account of the development of our knowledge of radio-activity and its bearing on chemical and physical science.

Pp. vi+52

CHARACTER AND TEMPERAMENT

The Psychological Sources of Human Quality

By JOSEPH JASTROW, Professor of Psychology,
University of Wisconsin.

(Conduct of Mind Series)

D. APPLETON & COMPANY. 1915

ARBOREAL MAN

By F. WOOD JONES, M.B., D.Sc., Professor of Anatomy in the University of London.

An attempt to take stock of what is probable concerning the phylogenetic story of Man, in order to see if there is any stage in his evolution at which he or his remains might be labeled as human.

Pp. x+230. Price \$2.40 net

LONGMANS, GREEN AND CO. New York and London

THE INFLUENCE OF MONARCHS Steps in a New Science of History

By FREDERICK ADAMS WOODS, Lecturer in Biology,
Massachusetts Institute of Technology.

"The historiometry of Dr. Woods is in principle a legitimate extension and a logically legitimate refinement of the long since well-known disposition to explain human history in terms of 'historical tendencies' and of 'historical forces'."

—Dr. Josiah Royce in *Science*, April 17, 1914.

1917 R-S

The World's Master Motorcycle

Up—up to still higher levels the Reading Standard now advances—time tested by many thousand exultant owners.

Fine has been *re-fined*—by an added year's development. And the 1917 Models are again without comparison.

A *transcendent* Reading Standard—unchanged in essentials and enriched in details. To better the best Reading Standard has been our aim—and the inspiration of the day's work.

In beauty, quality and luxury the 1917 R-S attains what seems to be the limit. Styles may change in a minor way, but we see no possible way of ever building a finer motorcycle.

Three Models for 1917

Model 17 T, 12 H. P. Twin Cylinder \$275.00

Model 17 TE, 12 H. P. Twin Cylinder, equipped
with Bosch Electric Lighting System 315.00

Model 17 S, 6 H. P. Single Cylinder 240.00

Let your distributor demonstrate the many features found on the R-S Machines only. Good territory still open.
